Writing Assistance Center

<http://www.unl.edu/english/wac/>

There is on-line help as well.

### ISU

Math Lab

On campus help.

<http://orion.math.iastate.edu/mathlab/index.html/>

Writing and Media Center

Resources for writing on-line; it looks as though tutoring will be available on-line in the future.

**NDSU**

Math Tutoring Help available on campus

<http://math.ndsu.nodak.edu/tutorial/>

Writing Center

Unsure about on-line tutoring, but there are many resources listed.

**On-line Tutoring is also available for math and writing at:**

[www.brainmass.com](http://www.brainmass.com)

<http://www.smarthinking.com/>

These are both reputable on-line tutoring companies. (I have worked for Brainmass for a number of years, and a few of my friends work for Smarthinking.) Tutors are not allowed to write essays for students, nor can they do students math homework. Students receive help in bettering their skills. There is a fee for services.

OWL at Purdue University has excellent resources.
